

# TAJAPIERA

Tajapiera is Veneto dialect referring to the people who used to excavate traditional stone from the Prun area in the heart of Valpolicella. The soil in this area is quite unique, the stones creating a third hard layer on the hillside slopes, giving very particular growing conditions for grapes. Tajapiera Amarone Valpolicella DOCG is a beautifully structured and incredibly complex wine, with wonderful richness and concentration.

## **TAJAPIERA | Amarone della Valpolicella DOCG**

Deep and vibrant red in color with an intense bouquet of blackberry fruit.

The palate is rich, very full-bodied, and well-rounded, beautiful, classic black cherry fruit flavors. Our wine is well structured, complex and offers a long, fruity finish.
